Joy,

Here is a summary of we talked about on the phone this afternoon:

1. Eva will submit a schedule every Monday for the next week on what community interviews will be performed that week.
2. Bill will participate in Eva's scheduled community interviews as he feels necessary.
3. Eva will provide all contact information of interviewees and a summary of the interviews to Bill every week. EPA will keep contact information confidential.
4. Bill will provide his draft CIP to Todd and me for our review.
5. DEQ and EPA will continue to coordinate closely on all community involvement activities. Bill will coordinate directly with Todd Downham the state Project Manager.
6. Attached is our Management Assistance Work Plan for our grant for your review. Please see section 3 community involvement. I feel that this work is covered by our grant. Feel free to talk to Carlene if you feel this is a problem.

Thanks for talking to me! I think this will be a mutually successful project.

Amy
